

How to use [last.fm](https://last.fm)

To start, type [last.fm](https://last.fm) into the address bar.

Once you get to the site, you can make an account for free, or just browse the site.

Once your logged in, you can start searching artists, specific songs, albums, anything. Just type the name in the search bar at the top and hit enter.

You can save artists and songs into your favorites, and based on that the site will recommend other artists.

You can also use the sites forums to discuss favorite artists, different genres of music, and connect with other users who might also have the same tastes as you.
